

Our Platters

Platters are often offered in combination with the scheduled menu items you can see on our Menu A and Menu B lists. We like to vary the options for the children on a day to day basis taking into account seasonal fruit and vegetables as well as our desire to make the food as exciting as possible for our children, hence we are unable to list the exact content of our platters each day on our already quite substantial menus.

What we can do however, is list items that may appear on our selection platters for our children to enjoy.

Please see a list of fruits, vegetables and other options that may appear on our selection platters:
